Significant Environmental Aspects and Potential Impacts

Operation/Activity	Significant Environmental Aspect
Operation equipment, Pump stations, Maintenance equipment, Vehicle use, Office/Administrative activities	Energy Use
Pesticide application	Adding pesticides to land, movement of water sources (e.g. groundwater, surface water)
Wastewater treatment (hypochlorite, bisulfite, polymers), Office/Administrative activities (office supplies), maintenance activities (supplies, oil, fuel, compressed gases, other), supply chain	Use of materials, chemicals
Supply Chain	Natural Resources
