What should we do in Eugene about our climate and energy future?

Kick-off Events

You are invited to **learn, share** ideas, and **take action** with others at **North Eugene High School**, 200 Silver Lane, Eugene
Two events, come to one or both!

MORNING EVENT

*9 a.m. to 1 p.m. features
World Café discussions*

-  Hear panel conversation about your questions and concerns.
-  Talk about climate challenges and opportunities with neighbors and leaders.
-  Generate and prioritize action strategies for the Action Plan.

AFTERNOON EVENT

*2 p.m. to 5 p.m. features
Open Space conversations*

-  Create your own topics and join the discussions most important to you.
-  Connect with others engaged with climate and energy challenges.
-  Share Information – Take Action – Build Networks

ACTIVATE YOUR NETWORKS. Spread the word about this important opportunity. These events are designed to help us all learn and make a difference together. All those who participate will make these events potent and fun – and have a significant impact on the future of Eugene.

The City of Eugene is working with partners to create a community Climate and Energy Action Plan by August 2010. The plan will set goals to reduce greenhouse gas emissions and prepare our community to be resilient in the face of a changing climate and rising oil costs. To meet these challenges we need public and expert input to make a good plan. We also need widespread community action. Please join in participatory events beginning September 26 and continuing into March 2010.

For more information about the project, or to roll up your sleeves and begin collaborating visit sustaineugene.com/eugeneclimate or contact Matt McRae at 682-5864.
