DUII Arrests in relation to Injury/Fatal MVAs

**DUII & Injury Fatal MVA’s by Day**

- **DUII**: Bar graph showing the number of DUII arrests.
- **Injury/Fatal MVA**: Line graph showing the number of injury/fatal accidents.

**DUII & Injury/Fatal MVAs by Month**

- **DUII**: Bar graph showing the number of DUII arrests.
- **Injury/Fatal MVA**: Line graph showing the number of injury/fatal accidents.

**DUII & Injury/Fatal MVAs by Hour**

- **DUII**: Bar graph showing the number of DUII arrests.
- **Injury/Fatal MVA**: Line graph showing the number of injury/fatal accidents.

### Highlights:
- The peak day for MVAs is Friday where DUIIs peak Saturday evening/Sunday morning.
- There does not appear to be any seasonality relationship between MVAs and DUIIs.
- MVA’s peak at 1400hrs where DUIIs peak at 0200.

A closer look at Robberies

Highlights:

- We have been below (sometimes significantly) the 3 year average every month so far
- There was a significant decrease in Robberies in January, August and September, our highest three months for Robberies
- November’s Robbery rate was almost half of last year’s November
Closer Look at UUVs

**Daily Average by Year**

- 2011: 1.8
- 2012: 1.6
- 2013: 1.4
- 2014: 1.2

Highlights:

- During the last five years camps in the park have increased almost six-fold
- Pose threat to public health and safety due to the presence of human waste and hypodermic needles
- Many camps occur in natural areas along the banks of Willamette River and Amazon Creek and have a negative impact on water quality and fish and wildlife habitat
- Vandalism and graffiti, prostitution, drug use and defecation on the restroom floors are an ongoing problems that create unsafe and unsanitary conditions for park users
- Community members have expressed fear of using certain parks or paths because of the presence of illicit activities
