

The City of Eugene is split into six areas, referred to as “Beats”. The following map shows the position of each beat in relation to the others.

Beat 2 receives the second highest volume of calls for service and has the smallest beat population. It should also be noted that statistics associated with Beat 6 are often deceiving, and although it has a large population, roughly half of its tax lots are considered County land. As such, the Lane County Sherriff’s Office (LCSO) handles the majority of calls in the area.
