

# WATER AND WILDLIFE

we all live downstream

dragonfly

heron

All of these animals and plants need streams, ponds and rivers with clean water to live in. Many of them swim, drink and play in it just like we do!

pond turtle

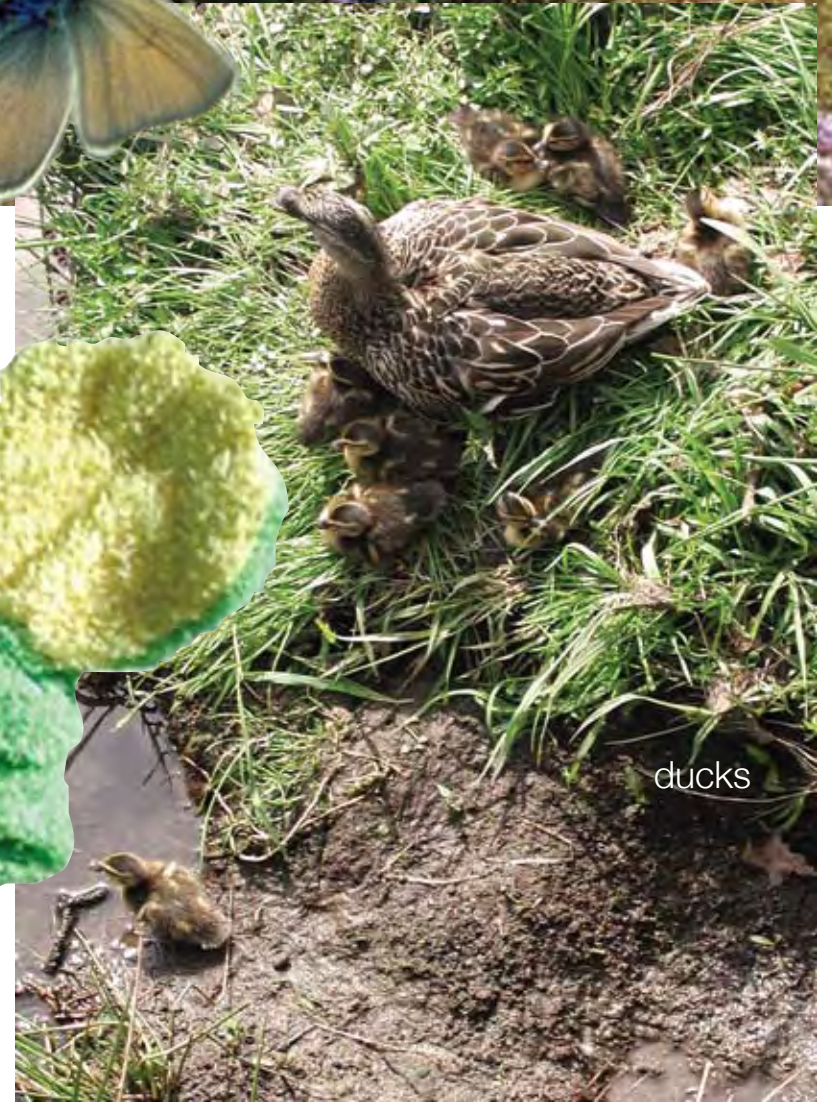

chorus frog

camas

butterfly

ducks

**Meet Lily!** Lily is the mascot for the City of Eugene's Stormwater Education Program. She is a Pacific chorus frog who goes to local schools and events to teach people about the importance of clean water in our community.

*Water with pollution in it can harm the plants and animals in our parks and natural areas.*

*Help Lily and her friends by keeping pollution out of storm drains and streams.*

For additional stormwater education materials, visit [www.eugene-or.gov](http://www.eugene-or.gov) and click on the Stormwater Education quick link, or call 682-8482.
