Envision Eugene Vision to Action

What Are Urban Reserves?

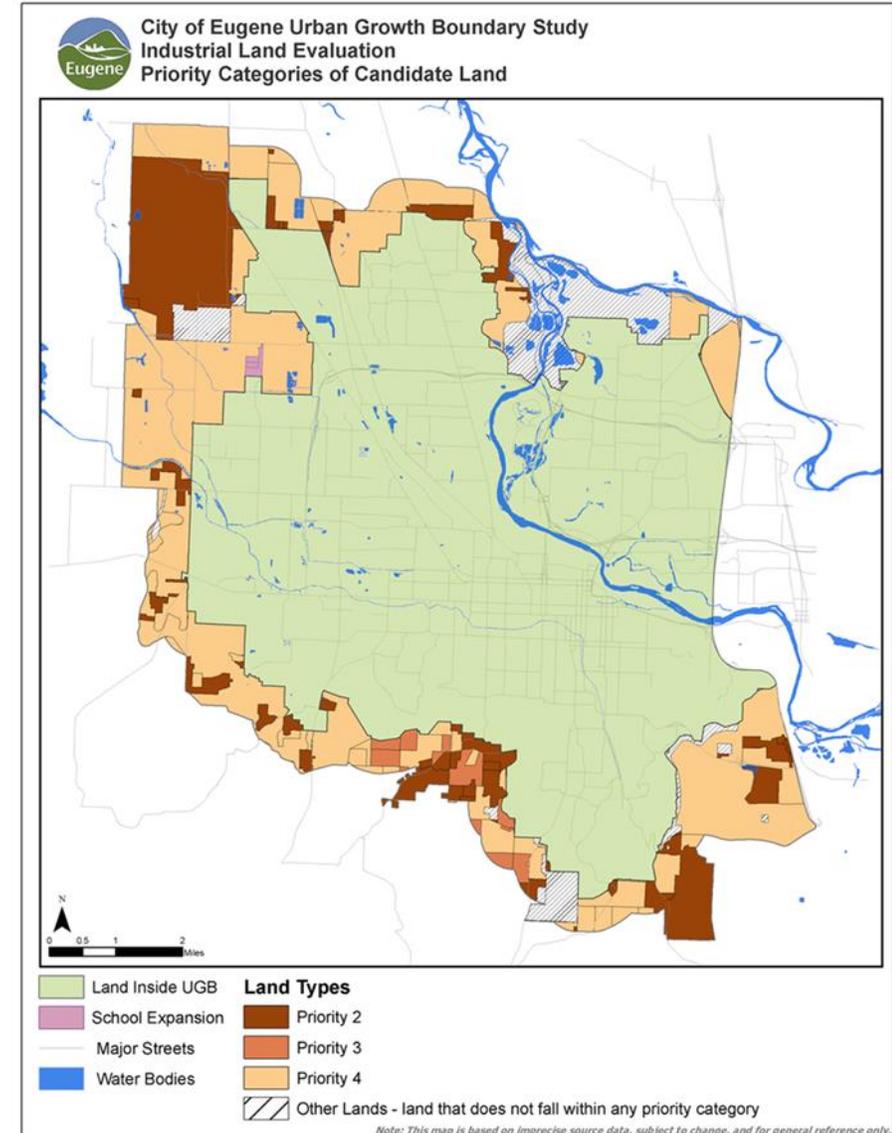

ANTICIPATED GROWTH: PLANNING BEYOND THE UGB

Data Source: Population Research Center, Portland State University 12/15/2015

Why are urban reserves important now?

- Coordinated with our Growth Monitoring program
- Urban Reserves in place before the UGB is re-examined in January 2021
- Will allow more flexibility and smart growth; not limited to “exception areas”
- More certainty for landowners

What happens if we don't adopt Urban Reserves?

- Less prepared to respond to growth
- Continued uncertainty about where future growth may occur
- Inefficient and higher cost of services and development
- Prevent us from realizing shared vision
