Rats like to live in the privacy of blackberry bramble, overgrown brush, and piles of debris. The first step to getting rid of or preventing rats is to get rid of the places they like to live. www.eugene-or.gov/rats

Tip #2
Prevent access to your home by sealing cracks and holes.

Rats multiply rapidly and can carry disease. Seal cracks or holes in your home and garage to prevent access. www.eugene-or.gov/rats

Tip #3
Store chicken and animal feed in rat-proof containers.

Be a responsible urban farmer, pet owner, and neighbor! All animal feed **MUST** be kept in a rat-proof container. We recommend something metal, with a tight-fitting lid and no holes. Clean up uneaten pet and chicken food daily. www.eugene-or.gov/rats

Tip #4
**Keep compost enclosed
in a bin with a tight-
fitting lid.**

Be a good neighbor! Only compost your kitchen scraps in a self-contained tumbler or bin. If the bin is open on the bottom, line the ground with galvanized wire mesh with less than ¼” openings. (Chicken-wire isn’t strong enough to deter rodents.) www.eugene-or.gov/rats
