

## Breathe easy Eugene

The City of Eugene wants everyone to enjoy fresh air downtown. Public spaces in the downtown core are smoke and vape free to:

- Create healthy and welcoming spaces;
- Reduce exposure of children and youth to smoking and tobacco use;
- Support people who are trying to or have quit; and
- Protect public spaces from cigarette butt litter.

### Where is the downtown core?

The downtown core is shown on the map (Lincoln to Pearl, 8th to 10th, and 11th from Charnelton to Willamette). The smoke and vape free public right-of-way includes sidewalks, medians, streets and alleys. It does not include privately owned areas like outdoor patios or parking lots.

### Smoke-free Ordinance

The use of any smoking instrument or device (including e-cigarettes) is prohibited in all of the public right-of-way spaces within the downtown core, unless a private establishment has “opted-out” of the rule. If a private establishment is approved to “opt-out” of the rule, some or all of the public right-of-way immediately adjacent to its property could be exempt from the rule.
