

# Transportation

**VISION:** The integrated transportation system in River Road and Santa Clara is safe, efficient, and accessible for people of all ages, abilities, and socio-economic levels who choose to bike, walk, drive, or use public transit. This system supports redevelopment, economic opportunity and affordable, convenient access to daily needs. The design of the transportation system enhances the sense of place and responds to the evolving needs of the community. Our transportation system is environmentally responsible and supports low carbon transportation options.

**Draft GOAL 5:** Support a transportation system that is affordable, environmentally responsible and low carbon.

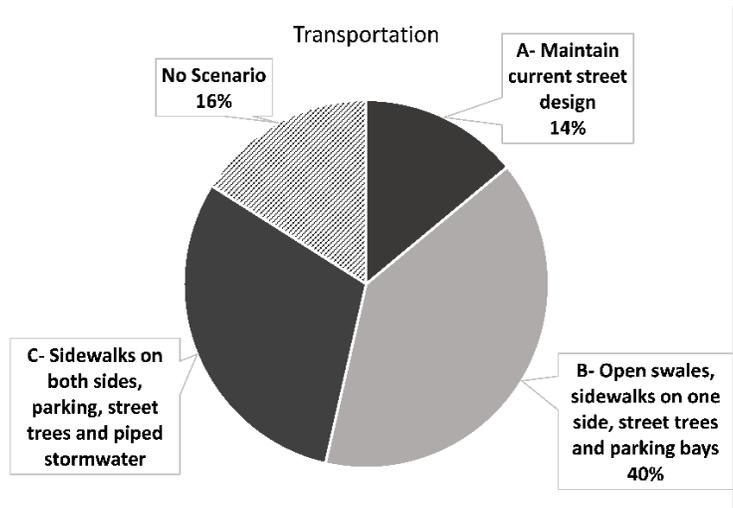

## IDEAS & VALUES (FALL 2017)

- New bike/pedestrian bridge over Beltline in Santa Clara
- LTD-Smaller buses that run more frequently
- Shrink River Rd and increase EMX
- Walkability, better (usable) mass transit
- More walkable North-South streets, safer bike routes other than bike paths
- Make it easier to get to parks & green spaces on foot
- Encourage bike use
- Make Hunsaker more pedestrian friendly with wider lanes for walking, LTD stop on Hunsaker/Division area
- Synchronized traffic lights, better crosswalks, extend bike path to Santa Clara
- Labeled bike lanes
- Use existing infrastructure smarter, want a walkable community with less need for vehicles, better traffic flow along River Rd
- Combine both bike lanes and one sidewalk into a bicycle/ped boulevard separated by a green strip, make it safer and more pleasant to bike from Santa Clara to river path
- Walkable, bikeable instead of car-oriented, higher safety in walking around corners, etc.
