

# Parks & Natural Resources

**VISION:** River Road and Santa Clara celebrate a rich diversity of private and shared green spaces, including parks for recreation, natural areas that support native plants and wildlife, and farmland for food production. All residents have a clean, safe, accessible and well maintained park or recreation facility close to their home. Residents have access to the Willamette River, which is celebrated as a natural asset, a defining characteristic of both neighborhoods, and a statewide resource to be protected for future generations. Natural assets, such as the tree canopy, soils and the watershed, are highly valued and cared for as natural infrastructure that enhances ecosystem health, provides opportunities for recreation, and supports the working landscape.

**Draft GOAL 8: Promote neighborhood access to recreational opportunities and parks.**

## IDEAS & VALUES (FALL 2017)

- Santa Clara needs a rec center with a pool in bikable distance
- Develop neighborhood parks
- Preserve green areas from development, keep River Road beautiful
- Public playground for kids
- Access to teen recreation
- Need a rec center and community gathering space
- Preserve and develop green spaces (activities, playground, disc golf)
- Parks within walking distance, public restrooms on bike path
