2. To eliminate existing blight and blighting influences;
3. To strengthen the economic and environmental conditions of the plan area and the metropolitan area;

The area is envisioned to include retail, commercial, housing and recreation.

More specifically, the public objectives of this plan are:

Land Use

Transportation/Access

- Improve access into and through the Riverfront Urban Renewal District area by transportation improvements consistent with the City of Eugene transportation policies, the City's capital improvements programming process, the Riverfront Park Study, and the Master Development Site Plan to be developed for the Riverfront Research Park site. In addressing Eugene's transportation policies, use strategies consistent with achieving the area-wide alternative modes goal of 25 to 30%.
- Plan and implement safe, direct, and attractive linkages between the Riverfront Urban Renewal District area, the University of Oregon, downtown Eugene, and the river.

- Provide mass transit facilities and services to and within the plan area emphasizing improvements that will encourage the use of alternative modes while reducing impacts on required parking and public street improvements.
- Improve circulation to and through the district and coordinate with other transportation systems.

Environment

- Enhance the natural vegetation along the adjacent bank of the Willamette River by developing an active management plan to protect the riparian area.

- Maintain and improve visual and pedestrian access to and along the upper Millrace, and expand its use for public recreation.
- Maintain and enhance the public's physical access to and along the Willamette River, addressing impacts of the plan area development on public open space, in particular the east Millrace outfall and the bicycle bridges.
- Preserve significant clusters of trees such as Black Locust, English Oak, and Red Leaf Plum located along the Willamette River within the plan area :
- Support design improvements or mitigations that are needed to treat stormwater, protect water quality, or to respond to other environmental protection needs.

Public Facilities and Services

- Develop public amenities such as public parks, plazas, recreation facilities, pedestrian/bicycle paths, parking facilities, etc., within the plan area.
- Improve the utility and storm drainage systems in the plan area.
- Mitigate potential flooding within the plan area for those areas located within the 100 year flood plan.
