

Project Information Sheet

Skinner Butte Parking Lot Water Quality Retrofits Project

Project Description:

This project will install stormwater facilities to treat impervious surfaces in the parking lot for Skinner Butte Park and the RiverPlay Discovery Village Playground. This area currently drains directly to the river without any water quality treatment.

Construction Schedule:

- Construction is scheduled for summer of 2023.

Traffic Impacts:

- People driving should expect reduced parking spaces in the parking lot.
- People walking should expect sidewalk detours in the parking lot.
- Expect equipment and workers in the roadway leading, with possible congestions and delays.

For More Information:

- Project Manager: Marina Wensch, phone 541- 682-5331, MWensch@eugene-or.gov
