

Community & Neighborhood Matching Grant Program: Fiscal Year 2022 Guidelines

For the small grant cycle opening Thursday, July 15, 2021. Funding available until May 15, 2022 or until all funding allocated to the Community & Neighborhood Matching Grant program is committed. Projects must be completed by June 1, 2022.

What is the Community & Neighborhood Matching Grant Program?

The purpose of the Community & Neighborhood Matching Grant Program is to encourage Eugene residents to collaboratively identify and actively participate in making improvements in their neighborhoods and the broader community through their neighborhood association, community group or other ad hoc group. Community member involvement and building relationships are key components of the program and are encouraged by requiring that:

- the project budget includes a match amount equal to, or greater than, the grant funds request;
- communication with and general support of the neighborhood association impacted or the Neighborhood Leaders Council;
- and documentation of broader neighborhood and/or community support.

Demonstrating responsible stewardship of our community assets through the lens of diversity, equity and inclusion while balancing our community's social, economic and environmental values are additional components of any project proposal submitted.

Additionally, this year Eugene is hosting the World Athletics Championship – Oregon22, which provides Eugene and surrounding communities an incredible opportunity to showcase the Eugene community and entire Willamette Valley. Projects that foster community pride and inspire a sense of belonging will be given extra consideration. Now more than ever, we are looking at this opportunity as the moment in time to welcome and inspire the world while actively healing from the challenges presented to our community over the past year.

Who is eligible to apply?

Proposals will only be accepted from groups of people living, working, or owning property within the neighborhood boundary in which the project is located or for community wide projects, within Eugene's Urban Growth Boundary. A neighborhood group may be an existing group whose membership is from a commonly recognized geographic area (e.g., neighborhood association, business association, or school site council) or an ad hoc group formed to work together on a specific project.

Although individual persons, businesses or community-based organizations (public, private, or non-profit) are not eligible to apply on their own, they may do so in active partnership with a community or neighborhood group or the neighborhood association.

Previous award recipients and current projects receiving matching grant funding are not eligible for additional program funding until outstanding projects are complete. All outstanding projects must be completed before a new contract for a new grant funded project is signed.

What types of projects may be considered?

Projects may include, but are not limited to:

- Those that build a safer, more inclusive and welcoming community for marginalized or vulnerable community members and for guests to our community.
- Physical improvement projects that involve recreation or public safety facilities, natural resource features, public art and spaces, or community gardens, and projects that improve universal accessibility.
- Public school partnership projects that benefit school children and the immediate neighborhood.
- Neighborhood-based events and celebrations.
- Capacity building initiatives that serve to create, diversify, or increase participation in a neighborhood-based organization or promote an understanding of issues important to residents.
- Outreach, education or organizing projects that address topics such as transportation (pedestrian or cyclist safety); land use (neighborhood or area planning) or public safety (disaster planning, neighborhood mapping, neighborhood safety); and diversity, equity, inclusion and fostering a sense of belonging in our neighborhoods and community.
- The City of Eugene is committed to building a legacy that enhances our community for Oregon22 and beyond. To support this goal, we are looking for projects that will enhance the neighborhood with lasting impact and benefit Eugene residents and visitors alike. Please share with us how your project will create a sense of inclusion and community while enhancing the events in 2022 and beyond.

Are there limitations or special requirements to know about?

All applicants must discuss their proposals with the manager of the Community & Neighborhood Matching Grant Program before submitting an application (541-682-5272).

Grant applicants are required to discuss their projects with HRNI grant program staff before submitting an application. Applicants will be notified if the project is approved for funding.

Projects **must** be communicated to the local neighborhood association. The following parameters have been established to clarify the involvement of neighborhood associations in the neighborhood matching grant application process:

- Small grant applicants must document communication they have with their neighborhood association about the project. Neighborhood associations should be given an opportunity to participate in or provide support to the project. Community-wide projects should be communicated to the Neighborhood Leaders Council and/or the Human Rights Commission with the option of greater support or participation.
- While it is not the association's role to determine the details of a grant proposal, applicants may request additional assistance from the association in writing the grant, educating residents about the proposal, documenting and gathering pledges of support, serving as fiscal agent, etc.
- It is the applicant's responsibility to keep the association apprised of any significant changes to the proposal as it moves through the review process.
- In areas without an active neighborhood association, applicants must work with Human Rights & Neighborhood Involvement (HRNI) staff on a process to gauge resident support for their proposal.

Projects may involve private property but must provide a clear public benefit and emphasize neighborhood self-help. Documentation must be provided that confirms property owner support and approval of the proposal and their agreement to maintain public access to the site for a minimum of 5 years.

The project site must be within Eugene's Urban Growth Boundary.

Grant funding requests must be between \$250 and not exceed \$5,000. The value of the total project including labor and installation cannot exceed \$50,000.

Grant funds cannot be used to:

- support ongoing, regularly occurring programs, events, services ;
- pay for an organization’s operating expenses that are not directly related to the awarded project;
- purchase land or buildings;
- pay for expenditures or financial commitments made *before* the organization is under contract with the City of Eugene;
- cover costs associated with damage to private or rental vehicles, equipment or injuries (see Insurance page 6-7);
- funding items (including food) or services not listed in the project description as submitted and provided in the final contract.
- support political activities or purchase alcohol.

No more than half of the grant funds available in a cycle will be used to fund neighborhood-based events or celebrations.

To avoid perceived conflicts of interest, applicants (and members of their family or household) are strongly discouraged from being both coordinator/representative and paid contractor/consultants on projects.

Projects must be scheduled for completion by June 1, 2022. All invoices and reimbursements along with the final report detailing project outcomes, documenting neighborhood match (including volunteer hours), photos of the project, and a detailed budget statement must be submitted by June 15, 2022. Failure to provide a final report will jeopardize grant funding for future projects submitted by the applicant.

How are projects selected?

Proposed projects will be scored and ranked on how they meet the following criteria:

- **Tangible Neighborhood Benefits**
 - The project produces an observable, physical improvement to the neighborhood or a measurable change in the sense of local community or identity.
 - The project provides a continuing benefit into the future.
 - The project reflects a priority need of the neighborhood in which it is proposed or as identified in existing neighborhood-based plans or neighborhood surveys developed in collaboration with a local jurisdiction.
 - Lasting impacts or neighborhood enhancement that benefit community and visitors during and beyond the World Athletics Championship – Oregon22.
- **Neighborhood and Community Involvement**
 - The project involves and fosters collaboration between neighbors and other neighborhood groups, community organizations and government agencies.
 - The project supports the establishment and maintenance of a safe, inclusive and welcoming community for all.
 - The project demonstrates broad neighborhood support through implementing as many of the following:
 - Write an article about the project for your neighborhood association newsletter, website or for distribution on a listserv.
 - Discuss your project at a neighborhood association meeting and other community forums.
 - For site specific projects, circulate a petition that includes adjacent residents (renters, owners and businesses) and/or post a notice of the proposal onsite with information on how to provide feedback and get involved.
 - Obtain letters of support from neighborhood and/or community organizations.
 - The project contributes to the goal of more evenly distributing grant awards throughout the community.

- **Project Readiness**
 - The application is complete and consistent with grant guidelines.
 - The project is clearly defined and feasible.
 - For physical improvements, including landscaping, ongoing and long-term maintenance is adequately addressed.
 - The project budget is based on documented and verifiable costs and specifications.
 - The project will be managed by capable operational and fiscal managers.
 - The proposed project is compatible with plans, policies and practices of local jurisdictions.
 - For projects not confined to City property, permission has been secured for use of the site from the property owner(s).
 - The matching portion of the grant, including the availability of volunteers and donated materials, is well documented and credible.

- **Triple Bottom Line Values (Social Equity, Economic Development and Sustainability)**
 - Project contributes to environmental health or our ability to effectively address climate change.
 - Project will have a positive effect on the local economy and minimizes costs to the community, now and over the long term.
 - Project supports responsible stewardship of public resources.
 - Project contributes to social equity by meeting basic needs, benefitting vulnerable populations, promoting community safety and cultural awareness, or building community relationships and neighborhood cohesion.

Staff will determine how well each project meets the listed criteria and have the discretion to recommend full or partial funding for any or all of the project applications submitted.

What are the match requirements?

Requested grant funds must be matched by an equivalent amount of cash donations, donated materials and supplies, professional services, or volunteer labor. Documentation of the match is required. Documentation of the matching funds or services is one way of indicating broad support for the project.

The following are match requirements:

- The total match must include an amount of cash, in-kind donations, or volunteer time that is equal to or greater than the grant amount requested.
- Contributions or donations from outside the neighborhood are allowed, however, only one-half of those contributions may be applied towards the match and may not exceed 50% of the total grant request.
- Funding from other City departments or from other government agencies is also allowed but not considered part of the match.
- Volunteer labor or professional services contributed before the grant is awarded cannot be counted toward the match.
- All volunteer labor is valued at \$28.54 per hour based on the national value for volunteer time.
- Donated materials or supplies are valued at their retail price. Loaned equipment may also be included as part of the match and valued at the standard rental fee.
- Cash donations may be secured with a written pledge signed by the donor, rather than collecting up front. If you have money in the bank to be used for the project, include a bank statement or a letter from the fiscal sponsor to document the funds.

- Professional services are valued at the reasonable and customary retail value of the product or service provided. Documentation of professional qualifications must be provided if professional services are to be included.
- A Match Pledge Form provided with the application must be used to document volunteer labor and donated cash, materials, supplies or services. The form must be completely filled out, including donor signatures. Copies of the completed forms must be included in the final report.
- Undocumented portions of the match will not be included in the total project match.

Applications must include the following, using the Community & Neighborhood Matching Grant application form:

- A **complete** project description
- A budget that includes estimates for:
 - All materials and supplies
 - Permits (if applicable)
 - Insurance (if applicable)
 - All other projected expenses
- Written permission from property owner or local jurisdiction (if applicable).
 - **All projects in parks** must be discussed with Parks and Open Space staff. It is recommended that the applicant discuss with POS staff any projects involving parks well in advance of application review.

Applications must be submitted to:

Cindy Koehler Ray
Human Rights & Neighborhood Involvement
99 W. 10, Eugene OR 97401
Or electronically to CKoehler@eugene-or.gov

Key steps in developing a successful project.

Develop a competitive project concept: Focus on an idea that builds community and fosters inclusivity and is consistent with the grant criteria. Model projects bring neighbors together, requires collaboration and addresses a clear need. Review the grant guidelines to see if your project is a good fit. Go to the Community & Neighborhood Matching Grant Program website (<http://www.eugene-or.gov/matchinggrants>) for project ideas.

Discuss your project concept early with appropriate City staff: You must discuss your project with the manager of the Community & Neighborhood Matching Grant Program prior to applying for funds. Contact Cindy Koehler at 541-682-5272 or ckoehler@eugene-or.gov. It is also prudent to contact the appropriate City Department that will be involved in the review and/or permitting of your project prior to submitting any materials.

Communicate with your neighborhood association: Documented communication with the neighborhood association is required. That can be electronically (email), by attending a board or general meeting or by phone. Some associations meet infrequently, and it may take some time to arrange to present your proposal if you decide to make a formal presentation. Applicants are strongly encouraged to initiate contact early in the application process. Letters of support or signatures from the neighborhood on the Neighborhood Petition for are strongly encouraged.

Contact Cindy Koehler at 541-682-5272 if you are unsure of whom to contact or if you are having trouble receiving a response.

Obtain additional neighborhood support: It is expected that applicants pursue a variety of means to educate residents about their project. Your application must show you have a broad base of support for the project.

Get approval for the site:

If your project involves property that your organization or applicant group does not own, you will need to get written approval from the owner. For private property, the owner of the parcel must approve the project. For projects on school grounds documentation is required from the District and school principal.

- 4J School District contacts:
 - Kerry Delf, Communications and Intergovernmental Relations, at 541-687-3245 (delf_k@4j.lane.edu) or
 - Harlan Coats, Facilities Management, 541-790-7409 (coats@4j.lane.edu).
- Bethel School District contacts:
 - Pat McGillivray, Community Relations, 541-689-3280 (pat.mcgillivray@bethel.k12.or.us)
 - Patrick Bradshaw, Maintenance, 541-689-7693 (pat.bradshaw@bethel.k12.or.us)

Determine resource needs: What will it cost to complete your project? Be thorough and make sure to include typical costs, such as equipment and supplies, services, volunteers, etc. as well as applicable permit fees and insurance costs. Will you handle project accounting, or do you need to identify a fiscal agent? (see *Fiscal Agents*, pg. 7)

Research permit requirements: Applicants are responsible for investigating permit requirements and associated fees. Related costs and timeframes should be reflected in the project budget and schedule. Contact the Permit and Information Center (PIC), 541-682-5086, to clarify the permit needs of your project. The PIC is open 9:00 am to 4:00 pm, Monday – Friday and located at 99 West 10th Avenue but due to COVID19, phoning ahead to confirm staff are available is recommended.

Insurance: Depending on the nature of the project, you may be required to have liability insurance to limit the liability of your organization and the City. If your project will involve the use of a contractor, the City of Eugene

will require proof of liability insurance from the contractor. Contact Jason Mead, JMead@eugene-or.gov, Risk Services, 541-682-5662, to determine the insurance needs of your project. The cost of insurance must be reflected in your project budget either as a match or as a funding request.

Please note that grant funded projects, including volunteers, vehicles and equipment donated for use are **not** covered under the City's policies for liability or other insurance. Volunteers assume all risk and responsibility for damage or injury including any costs associated with deductibles for private insurance. All volunteers must sign the waiver form included in the application packet and signed contract or award agreement.

Develop a budget and project schedule: Project budgets should be as comprehensive and accurate as possible.

- Get cost estimates for budget items from more than one reliable source.
- Construction projects must include a contingency fund of 15% of the hard costs associated with the project. (Value of volunteer hours need not be counted in the costs of the project for purpose of the contingency.)
- Documentation of professional qualifications must be provided to justify professional rates.
- Projects involving City Parks and Open Spaces may be required to include a maintenance endowment in their budgets.
- Include permit and insurance costs, if applicable.
- Applicants are required to use the budget form provided in the application.

Project schedules should be realistic, reflect the schedule constraints of potential service providers or contractors and designed to be completed by June 1, 2022, **no exceptions**.

Determine and document the match. Identify all possible match resources (cash, donated resources, professional services or volunteer time) and make sure to follow the match requirements.

Call with questions or guidance: Cindy Koehler, Matching Grants Manager, is available to answer questions and offer assistance with the process. Cindy may be reached at 541-682-5272 or ckoehler@eugene-or.gov.

What happens if my project is selected?

Grant Agreements: Successful applicants will enter into an agreement with the City Managers' Office that clarifies the terms and conditions of the grant. **Grant recipients will not be reimbursed for expenses incurred before an agreement is in place.** Typically, funding is provided in installments either on a reimbursement basis to you or directly to a vendor upon presentation of an invoice.

Fiscal Agents: You will need someone to handle and account for money raised as well as the funds the City allocates or reimburses to your project. We call the person or organization who handles the financial side of the project a "fiscal agent".

Purchasing Requirements: If you are awarded a grant, purchases associated with the project can be handled in two ways. The neighborhood group can make purchases directly and submit receipts for reimbursement or submit an invoice and have the City pay a vendor directly.

Contact Cindy Koehler in Human Rights & Neighborhood Involvement (HRNI) at 541-682-5272 if you have questions related to purchasing issues for your grant.

How do I apply?

Application materials are available online (<http://www.eugene-or.gov/matchinggrants>) or in the office of Human Rights & Neighborhood Involvement located on the first floor of the Lane Community College building downtown campus, 101 W 10th Ave #119.
